# Registering and paying for TAS Academy Seminars and Webinars:

**NOTE: All TAS Academy HVAC Training seminars** can potentially have an **ONLINE** component. **DERRY** or **NASHUA** indicates the Classroom location for the seminar.

**When the ONLINE webinar is FREE**, you still must click on the registration link provided with the class description, enter the requested information and click submit. *The Webinar link will be sent to you automatically.*

**When the seminar has an ONLINE component and a fee to attend, you must complete Steps 1 and 2 below.** *The Webinar link will be sent to attendee **after payment** is confirmed by sales.*

**When the seminar does not have an ONLINE component, You must complete Step 2 below** or send in a completed registration form

**Fax sign-up Sheet** to 603-425-6117  
**Email to** [randal@totalairsupply.com](mailto:randal@totalairsupply.com)

**Step 1:** Click on the provided link under the **online** date of the class you want to attend. If you want to take more than one class, you will need to complete this step for each class with an **online** component by clicking on the provided registration link for each class. You will be redirected to the registration page, click on the "Register Now" Box, fill out the form and click submit. **The links to attend the webinar(s) will be sent to you by email AFTER you have completed STEP 2.**

**Step 2: Make Payment** - Call Total Air Supply's sales department at 1-603-889-0100 or 1-800-370-0100 and let them know you need to pay for the upcoming class or classes you want to attend. You can pay with your credit or debit card or your Total Air Supply charge account, if applicable.

# Scheduled 2025 Spring Classes

## How to Use Electrical Theory, Sequence of Events, Diagrams and your Electrical Meter to Troubleshoot HVAC Equipment \$60

**April 1-2**, 5:30 to 8:30 pm **Online** Review

**April 3**, 5:30 to 8:30 pm in person in our **Derry** Classroom

This course will cover the basics of electrical theory, including single-phase and three-phase systems, as well as various types of wiring diagrams.

Participants will learn how to read these diagrams and understand the functions and applications of series, parallel and series-parallel circuits. Additionally, the course will focus on tracing safety and control circuits according to the sequence of operations on heating and cooling equipment. There will also be a review of meters and their use. Instructor: Randal S. Ripley

1. Click on the link to register for the Two evenings **online** Webinars
2. Call Total Air and pay for Class
